4 Steps to Building Ethical Behavior

Let's make sure we know how to build ethical behavior. This may be necessary if you are new to making decisions or are trying to shape your behavior to become more ethical.

4 Behave ethically.
Make ethical decisions everyday!

3 Identify the intended outcome.
Apply your personal ethics to the situation before determining the most likely path to reach an ethical outcome.

2 Decide what is moral or immoral.
Review ethics codes and decision-making models. Assign value to the antecedents and consequences identified below.

1 Become aware of moral behavior and decisions.
Identify the antecedents and consequences of ethical and unethical decisions.
